

Children's Center of

Monmouth County, Inc.

April 15, 2022

Dear Parents, Guardians and Staff;

The Children's Center is committed to protecting our students' and staffs' health. We have recently completed lead testing of our water supplies.

The water testing was performed in compliance with the technical guidance developed by the New Jersey of Environmental Protection and in accordance with the New Jersey Department of Education regulations.

We are pleased to report to you that none of the results of our operable water samples taken on March 30, 2022 and/or April 14, 2022 exceeded the federal EPA action level. Every sample tested below the lead action level of 15 ug/l or PPB established by the US Environmental Protection Agency.

A copy of the lab results including the cover lever reporting the results from Lyons Environmental Services, LLC are available in our central office for inspection by the public, including students, teachers, other school personnel, and parents between the hours of 8:30 a.m. and 4:00 p.m. and can also be found on our website at www.ccprograms.com. For more information about water quality in our school, contact Nancy Staplar at the Children's Center of Monmouth County at 732-922-0228.

For more information on reducing lead exposure around your home and the health effects of lead, visit the EPA's website at www.epa.gov/lead, or call the National Lead Information Center at 800-424-LEAD, or contact your health care provider.

If you are concerned about lead exposure at this facility or in your home, you may want to ask your health care providers about testing children to determine levels of lead in their blood.

Sincerely,

Joseph Merola
Executive Director

Analytical Results Report For **Lyons Environmental Services, LLC**

Project MCCC
Workorder 3237845
Report ID 163763 on 4/20/2022

Certificate of Analysis

Enclosed are the analytical results for samples received by the laboratory on Apr 14, 2022.

The ALS Environmental laboratory in Middletown, Pennsylvania is a National Environmental Laboratory Accreditation Program (NELAP) accredited laboratory and as such, certifies that all applicable test results meet the requirements of NELAP.

If you have any questions regarding this certificate of analysis, please contact Sarah Leung (Project Coordinator) at (717) 944-5541.

Analyses were performed according to our laboratory's NELAP-approved quality assurance program and any applicable state requirements. The test results meet requirements of the current NELAP standards or state requirements, where applicable. For a specific list of accredited analytes, refer to the certifications section of the ALS website at www.alsglobal.com/en/Our-Services/Life-Sciences/Environmental/Downloads.

This laboratory report may not be reproduced, except in full, without the written approval of ALS Global.
